

**LAWFULNESS, FAIRNESS AND TRANSPARENCY TEST****Application of FOI exemption Section 40(2) and EIR exception 12(3) 13(1)****DOF/2024-0277**

A Lawfulness, Fairness and Transparency test must be carried out by the Department of Finance when considering disclosure of third-party personal data which falls within the scope of an FOI or EIR request.

**FOI / EIR request**

I would like to request a copy of all papers relating to Minister's correspondence case COR-1277-2024. I should like to receive a copy of the advice provided to the Minister in the submission and any supporting papers relating to the response.

**Consideration of the personal data falling within the scope of the request**

Guidance from the Information Commissioner's office states that personal data only includes information relating to natural persons who:

- can be identified or who are identifiable, directly from the information in question; or
- who can be indirectly identified from that information in combination with other information.

**Description of personal data/issue(s) under consideration:**

The data held is in relation to the names of junior members of staff and the contact details of a senior member of staff, contained in Annex B. Release of the requested information could risk the individuals being identified.

In order to process and release the personal data (i.e. name and contact details) of the individuals would require their consent. The department does not consider it appropriate to approach the individual to seek their consent for release of their name or contact details.

**Lawfulness**

Do either of the two lawful basis below, which allow for the disclosure of personal data, apply? **No**

- Consent:** This applies when the data subject(s) clear consent exists, allowing the department to disclose personal data falling within the scope of this request.
- Legitimate interests:** This applies when disclosure is necessary for the department's legitimate interests or the legitimate interests of a third party

that overrides the data subject(s) rights and freedoms, particularly their right to privacy.

### **Conclusion**

Having considered all the information contained within the Lawfulness, Fairness and Transparency Test, the department has established that, on balance, there is no lawful basis for the disclosure of third-party personal data falling within the scope of the request (of which the requester is not the data subject).
