

1. RESPONSE TO SC1: VERSION 1 OVERVIEW

Established in 1996 and headquartered in Dublin, Version 1 is a leading IT Service provider with offices across the UK and Ireland (North & South), 2150 plus employees and £160M+ turnover. Our customers include top global banks, many FTSE 100 listed companies, Utilities and Commercial sectors as well as high-profile Public-Sector organisations across Local & Central Government (including devolved administrations), Health, Education and Bluelight.

With an organisation numbering over 2150 staff across our ERP, Digital and Enterprise Cloud practices, we can be agile, flexible and proficient in working with LPS to successfully complete this project within your timescales and budget, whilst also having the strength and depth to comfortably deliver larger programmes in the same agile way. We are committed to making a real difference to our customers through long-term, outcome focused relationships – success that fulfils our people and fuels our growth.

We have a strong local presence in Belfast with over 490 personnel supporting Public and Private Organisations in Northern Ireland. In 2021 our Belfast team was recognised at various events such as winning 'Best Large Tech Company of the Year' by Digital DNA. As one of our key delivery centres in the UK & Ireland, the team has had an exceptional year in 2020/21 and grew the team to over 490. The team also worked closely with local Schools, Universities, and other agencies in establishing routes for underrepresented groups and non-IT people to start a career in IT throughout Northern Ireland.
