

1. RESPONSE TO AC4: REPORTING

1.1. Overview

Version 1 recognise that LPS wish to partner with an experienced organisation that will not only provide them with resources to deliver the necessary reporting and dashboard development services, but one that can use their broad industry experience, deep vendor partnerships & highly skilled consultants to help LPS achieve their vision to be a data driven organization, underpinned by a modern business intelligence solution.

As a Microsoft Gold Partner, we hold Gold Data & Analytics, Gold Data Platform and Azure Expert MSP certifications, and are part of Microsoft's Power BI partner programme. Access to this programme provides our consultants with product roadmap insights and details on upcoming features, enabling our team to ensure that LPS are prepared to take advantage of new product functionality.
