Request**Re follow up request to DOF / 2024 - 0183**

If you really cannot query your system for the information requested then I would be content to accept a response, for now, that would tell me how many of your approximately 6356 pension records have an overpayment associated with them, or would you have to look through everything manually to provide this level of information?

DoF Response

I can confirm the department holds the information requested.
